WORKSHOP FOR SAFETY & GREEN MANAGEMENT ASSESSMENT (SgMA) SCHEME

- For SLOTS Registration -

SCAL / SLOTS registered contractor:
(with Conditional Approval)

Course fee*

$981.00 (includes initial audit)

** Inclusive of 9% GST*

Note: Kindly contact us if more than one participant from your organization wishes to attend the workshop.

The Singapore Contractors Association Limited (SCAL) requires all SLOTS-registered contractors to be assessed under the SgMA Scheme. This initiative aligns with the government's efforts to extend safety awareness to SLOTS-registered contractors and to require them to develop and implement a simplified Occupational Health and Safety Management System (OHSMS).

At the end of the course, participants will gain an understanding of the requirements under the SgMA Scheme. Upon completing the workshop, companies will be expected to develop and implement the OHSMS within their organisations. An SgMA audit will then be conducted in the **18th month**, which is a mandatory requirement to maintain SCAL-SLOTS.

IMPORTANT

1. Participant must be an employee of the company. He/ She should have some basic understanding of the construction site practices and be able to help the company to set up the OSH Management System.
2. Participants are encouraged to use a laptop/desktop computer for ease of learning.
3. ***Full attendance*** is required. Participants are required to attend two full days of workshop.
4. For company that has attained ISO 45001 or bizSAFE STAR, please check with SCAL for waiver of SgMA workshop and audit.
